Well, gang, Rally time is right around the corner. I've contacted the AMA and procured the event insurance for the rally, gotten the rally patches in and ordered the awards, which should be here in plenty of time.

I haven't seen our ad in any of the magazines yet, even though I emailed the info in way back in May or June. I'm not sure what impact this will have on our turnout. I'm gonna try to email a copy of this newsletter to a bunch of the clubs and dealers and make sure they know about it.

We could use some help, as usual, this time. We'll need folks to approach their nearest motorcycle dealers and post the rally flyer/poster and even ask them for door prizes for the rally. Any help will be appreciated. I'll include the rally flyer as the last page of this newsletter for that purpose, for those who can print it out and post it for us.

Not much content for this newsletter unfortunately. I have some pics from the Lima National and a trip to New Mexico that were contributed to me by Robert Walker. Please send me any and all articles and pics you would like to see in future issues.
